Access Free Cybercollege Tv Production

know how the film and TV imaging process works?. For one thing, knowledge is power, and the more you know about the process, the easier it will be to use the tools creatively.

Television Production: How The TV Process Works

Creating the Stereo Effect. In TV production there are several approaches to creating the stereo effect.. First,

Access Free Cybercollege Tv Production

there is synthesized stereo where stereo is simulated electronically. Here, a monaural (one channel, non-stereo) sound is electronically processed to create the effect of a two-channel, stereo signal. A slight bit of reverb (reverberation, or echo) adds to the effect.
