Networks Of Outrage And Hope

Networks of Outrage and Hope is an exploration of the new forms of social movements and protests that are erupting in the world today, from the Arab uprisings to the indignadas movement in Spain, from the Occupy Wall Street movement to the social protests in Turkey, Brazil and elsewhere. While these and similar social movements differ in many important ways, there is one thing they share in common: they are all interwoven inextricably with the creation of autonomous communication networks ...

Networks of Outrage and Hope: Social Movements in the ...

Like many of the protesters themselves, he is less clear about long term aims. He maps out their common form - how fear turns to outrage turns to hope and action. He talks about viral networks, horizontal multimodal networks without leaders. He acknowledges that they are not programmed movements. They want to change values.

Castells, Manuel (2012). Networks of outrage and hope ...

In the second edition of Networks of Outrage and Hope: Social Movements in the Internet Age, sociologist Manuel Castells conceptualises the relationship between social movements and the internet age through the notion of 'the networked social movement'. While the book utilises an admirable empirical dataset and shows deep understanding of the fluidity of contemporary social movements, Helton Levy wonders if Castells's optimistic vision neglects lingering issues, including state ...
