NOSE UNBLOCKING EXERCISE •Take a small, silent breath in and a small, silent breath out through your nose. •Pinch your nose with your fingers to hold your breath. •Walk as many paces as possible with your breath held. Try to build up a large air shortage, without overdoing it. •When you resume breathing, do so only through your nose. Try to calm your breathing immediately.

O X Y G E N ADVANTAGE EXERCISES

By following the simple, programmatic breathing exercises in The Oxygen Advantage, you'll be able to: • Maximize the benefits of any exercise or fitness program • Discover your actual fitness level and track your progress • Reduce your breathlessness during exercise

The Oxygen Advantage: The Simple, Scientifically Proven ...

Since oxygen is already saturated and breathing does little to affect it, increasing oxygen is not the key to performance, but delivery is. "The problem is not a lack of oxygen in the blood, but that not enough oxygen is being released from the blood to tissues and organs.". 4.
