Body image is a multidimensional construct defined by persons' perceptions of and attitudes about their body. Although the sexes differ on some parameters of body image, the present experiment was conducted to determine the manner and extent to which the sexes are socially perceived to differ. Male and female college students (n=72) completed a standardized body-image inventory, the ...

Flying in the face of this culture's extreme ageism, *STILL DOING IT* explores the lives of older women. Partnered, single, straight, gay, black and white, nine extraordinary women, 67-87, express with startling honesty and humor how they feel about themselves, sex and love in later life and the poignant realities of aging. Outspoken for their generation these women mark a sea change.
